National Ski Council Federation's First Online Auction a Success

The National Ski Council Federation has concluded its first online auction and wishes to thank all who donated items and those who submitted bids. Our generous donors provided a wide variety of items including clothing, equipment, lodging and lift tickets.

The bidding was conducted entirely on line and was open to everyone. The proceeds will enable NSCF to provide enhanced services to its more than 300,000 members who belong to about 640 clubs in 29 councils throughout the United States.
